

calpam

MARINE FUELS

A brand of **BOLLORE**
ENERGY

WE KEEP YOUR ENGINES RUNNING!

Calpam offers professional expertise in bunker trading
and brokerage since 1970.

THE HISTORY OF CALPAM: A JOURNEY IN BUNKER TRADING

CALPAM HAMBURG ESTABLISHED

Calpam Hamburg was founded in 1970 as a bunker and lubricants trading house to market Chevron branded marine products to the European shipping industry.

BRAND ORIGINS: CHEVRON AND PAM

The origin of the brand goes back to a joint venture between Standard Oil of California (Chevron) and Dutch oil trading house PAM.

CALPAM'S BUNKER SUPPLY OPERATIONS

For more than 25 years, Calpam physically supplied all kinds of bunkers at ARA and German ports, using chartered and self-owned barges. Today, the name Calpam is still being used for inland supplies in the Netherlands.

INTERNATIONAL TRADING

During the early 1980s the company commenced its international bunker trading activity.

BOLLORÉ GROUP ACQUIRES CALPAM

The Bolloré Group became the sole owner of Calpam in 1989 following Chevron's decision to withdraw from the European market.

THE BOLLORÉ GROUP

Established in 1822, the Bolloré Group is one of the 500 largest global companies in the world. Listed on the stock exchange, it is still majority controlled by the Bolloré family.

CALPAM TODAY

Deutsche Calpam GmbH provides professional bunker trading and brokerage services to international ship-owners, charterers, liner operators and trading houses.

For its customers, Calpam arranges worldwide bunker deliveries to all kinds of vessels such as tankers, bulkers, coasters, ferries, heavy-lift, offshore supply, general cargo, container, cruise and exploration vessels.

Backed by an excellent reputation and a long presence in the bunker market, Calpam receives full credit terms from worldwide major oil companies and independent suppliers.

GLOBAL SOLUTIONS

With a total of more than 55 years of market knowledge, Calpam's team of experienced traders offers global bunker solutions with expertise in:

Operational advice and support

Bunker planning and strategy

Bunker quality

Port infrastructure and local suppliers

Methods of bunker delivery

Risk management

MEMBER OF

Conceived in 1992, the International Bunker Industry Association (IBIA) is the voice of the suppliers and end users of marine fuel. Today it represents more than 800 organisations around the world.

COME ON BOARD WITH US!

More than four decades of bunker trading and broking have proven our ability to constantly adapt to challenging markets. Our corporate philosophy: Reliability, flexibility, security, transparency and sustainability. The bulk of Calpam's business is credit insured by Euler Hermes and backed by the Bolloré Group. This financial strength is crucial in times of price volatility and fast moving changes of market fundamentals.

CALPAM'S BUNKER TEAM

STEFAN FACKLAM

Managing Director

Tel: +49 (0)40 30 68 62 12

Mob: +49 (0)171 30 53 740

Email: s.facklam@calpam.de

Stefan started his career in shipping in 1985 with an apprenticeship as a dry cargo chartering broker at the Hamburg-based company Helmut Thimm GmbH. In 1988, he joined the tanker operations department of the German oil trading company Marimpex, before entering the bunker industry in 1991 by joining Deutsche Calpam GmbH. Stefan has served Calpam as an experienced trader for over 25 years, being appointed Managing Director in 2003.

DENNIS WULFF

Bunker Trader

Tel: +49 (0)40 30 68 62 14

Mob: +49 (0)170 90 18 358

Email: d.wulff@calpam.de

After his apprenticeship in wholesale and foreign trade, Dennis joined Shell and worked for the quality, health, safety and environment department. In 2000, he started his career as a bunker trader and broker at Deutsche Calpam GmbH. Between 2004 and 2007 Dennis achieved his Master of Business Administration by attending evening courses. He manages the company's trading operations.

CARINA BATISTA

Administration

Tel: +49 (0)40 30 68 62 13

Email: c.batista@calpam.de

Since joining the team in 2013, Carina has played a key role in managing all administration and office operations.

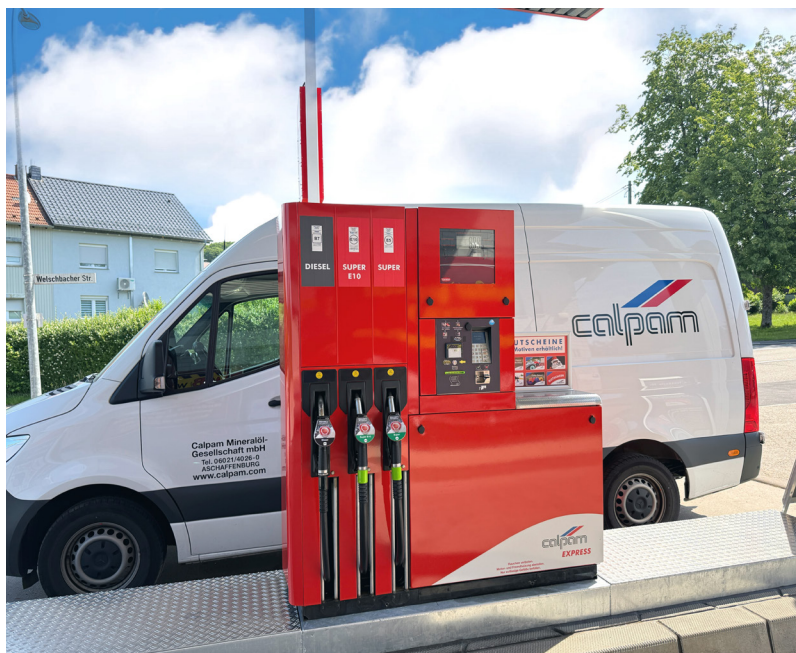

Her responsibilities include invoicing, billing, and preparatory accounting, ensuring that the office runs smoothly and efficiently.

CALPAM MINERALÖL GMBH

Calpam Mineralöl GmbH continues its expansion in Germany with a network of 60 modern filling stations, organized according to different operating models to meet customer expectations and local conditions. 34 of them are equipped with a shop, while 20 only have an external payment terminal.

Around 20 employees are responsible for the management, operation, and administration of the Calpam gas stations.

The headquarters of Calpam Mineralöl GmbH are located in Aschaffenburg, near Frankfurt.

BIO FUELS

YOUR TRUSTED PARTNER FOR
ISCC-CERTIFIED BIOFUELS

At Calpam we are proud to be ISCC-certified, showcasing our commitment to sustainability and compliance with the highest global standards for biofuels.

Our certification under the International Sustainability and Carbon Certification (ISCC) system ensures that all our biofuels—spanning a wide range of grades—meet stringent sustainability criteria, including traceability, responsible sourcing, and significant greenhouse gas (GHG) emission reductions, as outlined in the EU’s Renewable Energy Directive.

Our ability to source low-GHG-emission biofuels gives our customers a distinct competitive advantage, because we offer flexible and reliable delivery options worldwide by truck or barge, ensuring seamless logistics tailored to your needs.

Sourcing biofuels leads to a reduction of your CO₂ footprint by upto 95%.

WHY US?

Verified ISCC-certified supply

Latest ISO industry standards

Mass-balance traceability

No or minimal engine modifications required

Competitive pricing with full transparency

Supporting documents of sustainability for auditors

Power your fleet with cleaner energy – competitively without compromise.

LCN BUNKERING FRANCE

OFFICE ADDRESS
1 Avenue Neil Armstrong
Mérignac 33200
France

OUR HISTORY

LCN Bunkering France is part of Bolloré Energy, a long-established energy group with decades of experience in fuel supply, logistics, and trading.

Leveraging Bolloré Energy's strong physical infrastructure, financial solidity, and operational expertise, LCN Bunkering France has developed into a reliable physical supplier of marine fuels in France, operating in full compliance with industry standards and group requirements.

OUR BUNKERING ACTIVITY

LCN Bunkering France serves shipowners, operators, and traders with a strong focus on operational reliability and service quality.

Backed by the strength of Bolloré Energy, LCN Bunkering France positions itself as a trusted local physical supplier, combining group resources with hands-on operational expertise and a responsive market approach.

ARNAUD TOUZEAU

Head of Bunkering – France

Tel: +33 (0) 6 40 83 54 43

Email: arnaud.touzeau@bollore.com

Arnaud Touzeau leads the bunkering activities of LCN / Bolloré Energy in France. With a strong background in trading, logistics, and operational coordination, he is responsible for the development of the physical bunkering operations across all French ports.

KEY CHARACTERISTICS

PRODUCTS

Marine Gas Oil (MGO 0.1%)

GÉRALDINE MARTIN

Bunkering Operations & Coordination

Tel: +33 (0)7 50 67 60 07

Email: geraldine.martin@bollore.com

Géraldine Martin supports the French bunkering activity through daily operational coordination and client follow-up. She plays a key role in ensuring smooth execution of deliveries, liaising with suppliers, agents, and internal teams.

THE BOLLORÉ GROUP

A FAMILY ADVENTURE, JOBS WITH A FUTURE

The Bolloré Group, which celebrated its bicentenary in 2022, is now led by Cyrille Bolloré, the seventh generation to do so.

Proud of its Breton roots and its long tradition in the paper industry, the Bolloré Group, listed on the Paris Stock Exchange, is now embarking on a new chapter in its history.

Its family governance, stable shareholding structure and long-term commitment give it a unique strength. The recent sale of its international transport and logistics activities has generated significant cash flow, strengthening its ability to invest confidently in its businesses and holdings, while continuing to pursue its diversification strategy.

Driven by its values, the Bolloré Group is ready to seize new opportunities to build its future with ambition and commitment.

Bolloré

THREE BUSINESS SECTORS

A DIVERSE GROUP

INDUSTRY

This sector is made up of three divisions:

Blue, which encompasses the Group's industrial activities in the battery and 100% electric bus sectors;

Bolloré Innovative Thin Films, which manufactures ultra-thin films for industry and the food sector, as well as dielectric films;

Systems, which includes all activities in security, flow management and solutions for sustainable and intelligent industries and cities.

BUNKERING

Bolloré Energy supports bunkering operations by supplying hydrocarbons and biofuels.

The company markets these products through its subsidiary LCN and has depots throughout France: Brest, Rouen, La Pallice and Fos-sur-Mer.

Deutsche Calpam GmbH provides professional bunkering services to international shipowners, charterers and shipping

LOGISTICS

Bolloré Energy has invested in a network of five depots, which it owns outright.

This network of depots enables Bolloré Energy to control a large part of the supply chain, thereby securing its supplies and improving its management of flows in line with demand.
